PROFILE

27-year-old master's student in Service System Design (AAU Copenhagen). Works with the design of service systems across human interactions, infrastructure, and societal change, using tools such as co-creation workshops, stakeholder and system mapping, and visualizations for complex problems.

A bachelor's degree in Medialogy provides experience in UX/UI, programming, and digital solutions in a societal context. 7 years of high-service experience (Michelin-guide level) has strengthened skills in leadership, conflict management, and facilitating under pressure. Independent jewelry designer with 3D modeling, branding, and entrepreneurship.
